YACHTING AT ROCHESTER.

RACE SAILED IN A GOOD BREEZE—ATALANTA WHITE WINGS AND MERLE THE WINNERS.

ROCHESTER, N. Y., Aug. 1.—Things looked blue at nine o'clock, the time arranged for the start, the wind being almost dead. The judges extended the time to ten o'clock at which hour a nice breeze from the north-east was blowing, and the yachts got across the line as follows, for a race of thirty miles, three times round a 10-mile course. Class A, and the crew to start, at 10:05.

S. BURROWS, GENERAL AGENT.
Belleville, Ont.

Bargains in Carpets.
GLASGOW WAREHOUSE.
JAS. W. DUNNET.

The Atalanta got across the line first, and went over the course like a steamboat, being closely hustled by the Oriole, six minutes too late, however, to take first honors. The Aileen took third place.

JUBILEE GRAPHIC—the third sup-

In Class 1 the White Wings had it their own way, sailing a grand race. The Starfield, of Kingston, took second, and the Ethel third. The Verve carried away her spinnaker haliard, and the sail getting in the water, her spinnaker boom was broken through, by which accident she lost considerably, but it is doubtful whether she would

J. C. OVERELL'S.
FANCY EMPORIUM

The Merle was an easy winner in his class, with the Laura and Molly a close second and third. The Cyprus lost his spasm and any chance of a place early in the race.

In Class III, the Velvette took first place second and Lottie third.

The following table shows the classes

Just received from the manufacturer, a large quantity of beautiful COLORED SLIPS.

FROM MANITOBA.

"I have been cured of chronic diarrhoea by use of Dr. Fowler's Extract of Wild straw-
berry. I used about twelve bottles of it and
am now entirely free of the disease." William
Laren, Clearwater, Manitoba.

—It was announced in the House

Proprietor.

—Peter Nettle, the farmer who shot and killed George Stevens, the escaped Canadian convict, near the international bridge.

Wednesday last, has been committed to island gaol on the charge of murder, and he is to be tried in October.

—TO BE HAD—

OOD THE YEAR ROUND—National
are a good blood purifier, liver regulator
and preventive for all anaemias.

The latest development in the Father
and daughter litigation is that John and Allan
Gilmour jr. the prosecutors, have been ar-
rested on a counter charge of stealing logs
shipped by an employee of the Priest.
The two Gilmours were at once released
on bail.

—AT—
BRIDGALL & THOMSON'S

A special cablegram to the *Mail* says Sir James Ferguson announced in the House of Commons last evening that a correspondence is now progressing, which is hoped would lead to a satisfactory settlement of the Canadian fisheries dispute at an early date.

N. Washington, M. D., L. C. P. S. O., &c.
 Eminent Throat and Lung Surgeon.

SEPT. THE 10TH

DEBENTON'S Coughs of the Head and
 Throat, Catarrhs, Chronic Bronchitis,
 Asthma and Consumption. Also the use of
 the new remedy.

DR. DOREN WEND'S

DR. DOREN WEND'S
 GREAT GERMAN

HAIR MAGIC

It will be found invaluable for the hair and
 scalp. It cleanses the scalp of all dandruff
 and restores the growth of the hair, and in
 cases of baldness where there are the slightest
 signs of regrowth it will produce good crops
 of hair. It restores gray hair to its
 original color, and is an excellent dressing.
 Do not delay your hair in a weak
 condition but get a bottle at once.

For sale by all druggists in Belleville
 and all parts of Canada.

A. DOREN WEND,
 Sole Manfr. Toronto, Canada.

Refrigerators

THE LEONARD DRY AIR
 CLEANABLE REFRIGERATORS.

BEWARE

OF WORTHLESS IMITATIONS.

There are many inferior
 imitations of the "Graham Corset Co."
 which are sold at low prices. Beware of
 cheap imitations. The "Graham Corset Co."
 is the only one that is worth the name.

"Graham Corset Co."

is stamped on their label of all Corsets made.

Without which none are genuine.

"Cheap Drugs are"

"the dearest things"

"on Earth."

It is believed that the most frequent and
 dangerous cause of disease is the use of
 cheap imitations of the "Graham Corset Co."
 which are sold at low prices. Beware of
 cheap imitations. The "Graham Corset Co."
 is the only one that is worth the name.

Daily Intelligencer.

OUR MR. JENKINS

American Antiquities.

THE GREAT RECENTLY FOUND IN
 ADAMS COUNTY, OHIO.

The great recent find in Adams County,
 Ohio, one mile south of London, Ohio, is
 the most important discovery of the century
 for the purpose of preserving the
 remains of the three chief Indian mounds
 in that state. It is known locally as the
 "Snake and Arrow" mound and is the only
 one of the kind in existence.

It is described in detail.

The mound is on a crest about a
 mile from the town of London, Ohio, and
 is the most important discovery of the century
 for the purpose of preserving the
 remains of the three chief Indian mounds
 in that state. It is known locally as the
 "Snake and Arrow" mound and is the only
 one of the kind in existence.

COLD MEDICATED.

N. Washington, M. D., L.C.P.S.O., etc.

EMINENT THROAT AND LUNG SURGEON.

See him at Belleville, Henderson House.

Sept. the 10th

DISEASES OF THE THROAT AND LUNGS.

The following are the names and addresses of

only a few of the many who have been cured

by Dr. Dorenwend's

Great German

DR. DORENWEIND'S

GREAT GERMAN

IMPORTANT TO ALL

Who are bald or have thin, greasy hair, or who

are troubled with DANDRUFF.

DR. DORENWEIND'S

GREAT GERMAN

HAIR MAGIC

Will be found invaluable for the hair and

scalp. It cleanses the scalp of all dandruff

and restores the growth of the hair, and in

cases of baldness restores the hair to its

original color, and is an excellent dressing.

Do not delay if your hair is in a weak

condition but get a bottle at once.

For sale by all druggists at Belleville

and all parts of Canada.

A. DORENWEIND,

Sole Manfr., Toronto, Canada.

Daily Intelligencer.

A Cruel Folly.

The following extract from a communication

to the Editor of the Intelligencer, dated

August 1st, 1887, is published for the

information of our readers.

The writer of the above communication

states that he has been informed by

a reliable source that a large number

of the people of this city are suffering

from a disease which is called

"the fish disease," and which is

caused by eating fish which has

been poisoned by the use of

poisonous substances.

∴ BUTLER'S ∴
 CELEBRATED
 Blackberry Cordia

The most effectual remedy yet discovered
Cholera, Cholera Morbus, Diarrhoea, Dysentery,
Cramps, Colic, looseness of the Bowels, &c.
This justly celebrated preparation is
recommended by the medical men, and has
been used with the greatest success for the last
years throughout the United States.

PREPARED BY

SPENCER'S
Ophthalmoscopic Test Lens

A SCIENTIFIC and practical instrument for detecting all optical defects of the eye and determining the lenses needed for their correction.

As we use this instrument in adjusting spectacles and eye glasses, we can guarantee satisfaction to our customers in all cases of

MYOPIA, or Near Sight.
HYPEROPIA, or Far Sight.

In our experience many persons have been found to have eyes that are unlike, that is, requiring lenses of different magnifying or diminishing power for each eye, which combination in one person will cause distinct visual effects.

call and acquaint themselves with the merits of this instrument.

Spectacles and eye glasses always in stock, the several grades in frames of Steel, Rubber, Nickel, Celluloid, Silver, Gold, and special and eye glasses other than regular goods mounted to order.

Oculists' prescriptions carefully filled.

S. A. SPANGENBERG

This image shows a blank page from a document. The top portion of the page is a uniform light beige or off-white color. A solid, dark horizontal band runs across the bottom edge of the frame, likely representing the binding or the edge of the scanned paper. There is no visible text, handwriting, or printed matter on the page.

binding on the Company, will require the
signature of the President, in addition to that
of the Treasurer.

INTELLIGENCER is printed and pub-
lished for the INTELLIGENCER Printing and
Publishing Company (Limited) by JAMES
JAMIESON, resident in Belleville, at their
Office, Front St., south of Hotel St.

of the Bridge Street Methodist
rest evening and closed the service
in usual impressive manner.
Rev. Mr. Taylor occupied the Tabernacle
last night, and delivered a very
effective sermon.

The remedy which most successfully combats
malarial disorders, is Ayer's Ague Cure. It is
the only medicine that cures the disease, and
affords quinine never otherwise dangerous in-
ferred to cure chills and fever.

BEWARE OF COUNTERFEITS.

RECOMMENDED. The whole city's attention
attracted by the lowliness of prices for
made to order in Hennessey's windows.
better chance was never had to purchase
any fine made clothing than the present.
At the season of the year all are liable
sudden attacks of cholera, cramps, etc.,
and, should have at hand a reliable
remedy for such trouble. Holden's Cholera
Cure will be found just such a remedy.
Your own druggist has not got it, go to
us, we will make clothing than the present.
In twenty-five cent bottle may prevent
a great deal of pain.

Dr. E. H. McCrex, of the Hudson Bay Co.,
sett. Lyman, Manitoba, says: I suffered from
malaria for a number of years and consulted
scores of 8000 experienced physicians and obtained
no relief. I was told to try "Holden's Cholera
Cure," etc., obtaining relief. Your advertisement
in the "Hudson Bay" has been of great service
to me. I am in Nasal Balm. I sent for a bottle, and
it was the best I ever used. I have used it
and it gave me immediate relief, and in
less than two weeks the affliction with
all its painful and dangerous accompani-
ments, and again assisted all struggles with
it, and I am Nasal Balm.

Children Cry for Fletcher's Castoria.

operations in North Hastings are being run. H. J. Ritchie, president Central Ontario railway, will open a mine in a few days. J. B. Ball, late superintendent of the same, bought a profit mine near Bancroft which he has equipped. It once will be sold to be crushed at the mine. The St. Charles mine is also to be opened at once.

RECEIVED.

Ms. Spaight, Matron of the Deaf and Dumb Institute in this city, has resigned position which she has held for many years with marked ability. We understand that the reason for her resignation is that she was neither deaf nor dumb. We join in wishing her happy joy.

PROBABILITIES.

MONTRO, Aug. 8.—Fresh south and west winds blowing from the stationary or higher temperature.

THE REBELLION

North-west has been suppressed and now we can devote respectable attention to the kitchen. The only cure, safe, and genuine is by Putnam's Painless Corn Extractor. See failure; it never fails. (Don't you get any more), and "take some more."

Ms. SHERMAN BAPTIST should be found with the kitchen. His cleaning and boiling, Miss Cane, the girl whose arrest on street, London, caused so much remark, the girl who was prosecuted the man who arrested her for perjury.

Ms. DYSPYDIA and Live Complaint, the girl who was arrested for perjury, the girl who was arrested for perjury.

Ms. VILLY. It never fails to cure.

He admitted assailing the young man, he held him tight, he made off for the assistance of the police. It was about the men kidnapped woman. No trace of the woman for the three men has yet been found. The cause raises great excitement here.

Kings Katakaua's Crown.

It is said that his salary, but very little else.

FRANCISCO, AUGUST 6.—Advices from the state that the king signed constitution on July 10th. It decides of all power but that of draw salary and granting pardons. E. M. Gibson has escaped in a sailing vessel for the United States. All in the island and confidence is re-

The Bulgarian Throne.

On August 6.—The reports about the departure of Prince Ferdinand are untrue. He has not sailed to make his entry into the capital, in spite of the obvious Austria that he should do so, and unable not now venture to brave the hostility of the acting emperor, Emperor Knigov's known wishes.

PRINCE WOLFF.

The summer was suitably laid up with complaint, a friend advised me to use Hua and I did so, and four bottles of Hua. I cannot praise this too much.

—New York, Oct. 10th.

Dog Cases.

Even dog cases were before the Magistrate this morning. There were many, and two laid over for evidence and two fined.

TEMPERATURE.

As Registered by Dr. Hall's Self-Registering Thermometer.
THURSDAY, August 11, 9 a. m.
Maximum 83, minimum 68.
Barometer 29.70.

Night Fishing.

The other night two young men, Korah 17 and John Van, were on a fishing expedition down Big Bay. Unlike most other fishermen, although their deeds were good, they choose darkness rather than light for their work, and in two hours landed 30 fish, mostly bass. They had their luck off Big Island between nine and eleven o'clock at night and only quit because their supply of hoppers became exhausted.

From The Pacific.

Mr. and Mrs. William Templeton of Vancouver, B. C., and Miss Templeton of this city, were spending some time in San Francisco, enjoying the sights and attractions of the city of the Golden Gate. Mr. Templeton had a surgical operation performed on his son Willie, who was afflicted with an impediment of speech, and anticipated the best results. Miss Templeton expects soon to start for home. She has greatly enjoyed her trip to British Columbia and California.

Blasting Fond Hopes.

Geology, as understood by modern experts, contradicts the assertions of certain residents of the regions round about Belpoint. It declares most positively that there is no coal in the Trenton formation of rock strata. Geology and geologists must be respected, hence the expectations of those who believe in the existence of rich deposits of coal in the district referred to, rest upon an uncertain basis. We win our faith to the geologists, the promising specimens of anthracite to the contrary notwithstanding.

Why He Lost the Race.

Captain Ames, of the yacht Merle, has returned to Oswego, and as an excuse that his boat was defeated, said: "The course at Kingston was a very poor one, and the captain of the Iolande, because of his familiarity with it, was able to get a 'slant' on the Merle several times. The Merle struck on shoals twice, and considering the circumstances against which she contended, made a good showing. She will not sail in the Belleville race." The Iolande said: "The course is the same over which regattas have been conducted for the past fifteen years. It is the best course of any in sheltered waters." The other boat that the Merle struck was the Iolande, which fairly cut sail in every part of the race. There are no shoals on the Belleville course, except such as are conspicuously buoyed off. Yachmen here, and the visitors, think it very unnecessary that the owner of the Merle declined to sail the "rubber" between his boat and the Iolande here.

Dredging the Harbor.

How the Scooping Business is Done—Some of the Difficulties.
The dredge Mamon is hard at work in the harbor. Inspected from the shore, the work she is performing appears easy enough. Viewed at short range the difficulty begins to crop up. Just now they are working in a bed of loose stones, making a channel 12 feet deep of clear water. The scoop begins at the bottom, and consequently has to lift a tremendous weight. When full it contains 1½ cubic yards of debris, a weight of some 10,000 pounds. The power equal to the strength of 250 horses is required to force the scoop through the bank of loose rock. When the teeth catch under the projecting edge of a rock the greater part of which is covered with tons of packed earth, something has to give. This accounts for the frequent breakages which force a suspension of work until repairs are made. At the present rate of working about 600 cubic yards are removed in a day. Mr. Munson says when the bottom is loose earth minus boulders, he can take out as many as 1,000 yards a day. Boulders are kept along, aside into which the debris is dropped from the scoop, then towed by a tug across the bay and emptied into deep water. A dynamo for the propulsion of electric light is on board for use when day and night gang are at work. The crew which man the dredge live on board. The cook reigns supreme over the all end of the dredge. It pays to cultivate his good graces. The latter is well stocked with the necessities of life, and a peep through the open door of the refrigerator revealed not a few of the luxuries. The crew are evidently famished.

A Stricken Clergyman.

We regret to learn that Rev. Hiram Williams, who asked for and received a supernumerary relationship, at the late session of the Methodist Conference at Philadelphia, is now in very feeble health. His condition is such as to excite a little hope of recovery. He has many friends in the Methodist and other churches.

St. Michael's Church.

The pay roll on St. Michael's Church amounts to nearly \$3,000 a month. The outside walls are about completed. Goughlin Bros. are dressing the 12 polished granite pillars which are to support the gallery. They were quarried in New Brunswick, and will be put in place this week, it is hoped.

YACHTING.

The Ethel, from Charlotte, of the last class, owned by Mr. Chas. Wertz, arrived last night. The number of entries assure a first class race in all classes.

It is thought that the Yerro will not race although she has entered. Botsa leaves for the Point at every 20 minutes.

Mrs. Jarvis, wife of the new owner of White Wings is on board. She is enthusiastic in yachting matters.

When Baby was sick, we gave her Cutler's. When she was a Child, she cried for Cutler's. When she became Miss, she clung to Cutler's. When she had Children, she gave them Cutler's.

Children Cry for Pitcher's Castoria.

Boat for the International Park.

A grand excursion to Niagara Falls and the International Park, including Camp and Canadian Chautauque, will be run on Wednesday the 24th August and return on the 26th, at wonderfully cheap rates for the round trip by G. T. Ry.

Passengers can take either of morning, noon, or evening regular trains going west on the 24th and have option of all rail or can take the Express of India at Toronto.

A Grand Knight's Encampment of the Royal Templars of Temperance will be formed at Niagara, and instructions given in the complete working of the degrees, on the 24th, by the Dominion Officers, Bros. Buchanan, Land, Kattell, Phillips and Haddon.

Return tickets from Belleville and Trenton 83. Further particulars by large and small posters. 81d11, 22.

To Avoid Baldness or Grey Hair.
Use Dr. Doernbecher's Great German Hair Magic. It keeps the scalp clean and free from dandruff, and promotes the growth of the hair. It prevents premature greyness and stops any falling out of the hair. On bald heads, where the roots have not perished, it will invigorate them and force a new growth of hair. Ask for Hair Magic. It is the only remedy of its kind. For sale by all druggists in Belleville and all parts of Canada.

Cheese Market.
Cheese was contracted for at Madison yesterday at 12½ and 12½ cents. At Naples as high as 13 cents was given in contract.

For Toothache.—Go by a bottle of Pain Killer, and find relief in the twinkling of an eye.

Women to Become Preachers.
BROOKLYN, Aug. 10.—Cordelia Langford states that a society for women will be established at Westchester where they will be trained to preach the Gospel in the French African possessions. The cardinal is convinced that women will be able to civilize and christianize the African youth with far greater success than men.

Canadiana Pensioners.
OTTAWA, Aug. 9.—The amount paid in pension by the government last year was \$17,963, including \$9,800 on account of the North-West rebellion. The total sums distributed to veterans of the war of 1812 and the rebellion of 1837 since confederation is upwards of half a million dollars.

State Aided Emigrants.
LONDON, Aug. 9.—A blue book has been issued containing the correspondence in relation to the admission into the United States of destitute alien and state-aided emigrants. The correspondence includes Secretary Bayard's letter of May 7th, 1887, to Mr. West, the British minister at Washington, and Mr. West's reply.

They Jumped to Their Injury.
CONCORD, N. H., Aug. 10.—A fire broke out last night in a large four-story wooden warehouse on Railroad Street. It raged fiercely until midnight. Eight members of the Third regiment had been practicing in the fourth story. They jumped from the windows. All were injured.

An Epidemic of Diphtheria.
CLEVELAND, Aug. 10.—To the long period of warm weather has succeeded a spell of cool temperature intensifying by the suddenness of the change. This has resulted in producing diphtheria to such an extent that the health officer pronounces its spread alarming.

New Departure.
A FARMER WHOSE MOTHER-IN-LAW BECAUSE HE RETURNED TO HIS HOME.

A queer development of the mother-in-law element in human nature is reported from Valente, near Toulon, France. Jules Anicot, a young groom, four months ago lost his young wife, of whom he was very fond. The bride's mother had lived with her son in law and they had not got on at all well together, but after the funeral Anicot discovered that Mme. Frobis, his wife's widowed mother, was very much like her daughter, fell in love with her and then proposed, although his mother-in-law was more than twenty years his senior. Mme. Frobis refused and persisted in her refusal, although Anicot renewed his offer frequently. On Tuesday Anicot returned from a café after drinking to calm his chagrin, and entering his mother-in-law's room, proposed once more. She refused again, protesting that it would be improper for a mother to marry the husband of her daughter. Anicot then drew a revolver from his pocket and shot his mother-in-law dead at the foot of the staircase by which she had tried to escape. He next fired two bullets into his own body and threw himself out of the window into the street. He lies dying in the hospital.

Signs of War.
The severe tension which exists in the relations between France and Germany is shown by a letter which appeared in the Berlin Post. A Maximilian spokesman counts the brutal treatment to which he was exposed at Belfort. He attended a fete there held in a concert hall, and was selling tickets representing the French Republic. A cry was raised that he was a spy. He was immediately surrounded by artillery officers with drawn swords, his clothes were torn to pieces, and although he managed to escape after enduring much violence, he was later arrested by the police, incarcerated in a jail which baffled description, and after being thoroughly searched he was led to the Procureur.

After four days of inhuman treatment he was taken to the frontier and taken home. One would suppose that such proceedings were altogether inconsistent with the long continuance of peace between the two countries.

Broken Down.
After suffering with dyspepsia, indigestion, loss of appetite, and general debility, I was discouraged, I heard of R. B. B. took two bottles and now I feel well as ever. Mrs. John E. Merry, New Albany N. B.

Children Cry for Pitcher's Castoria.

Shot the Wrong Man.

A CONTRACTOR KILLED WHILE ACTING AS TARGET.

ATLANTA, Ga., Aug. 10.—A terrible tragedy occurred at 11 o'clock last night in a private room in the Kimball House. E. M. Horne, one of the most prominent business men of Atlanta, was instantly killed by Colonel Bud Venable, recently promoted to Colonel Sam Venable and Venable was engaged in a fistfight, when Horne and several other gentlemen attempted to separate them. Venable fell to the floor, with Venable on top. Venable managed to get out his revolver from his pocket and fired twice in quick succession. Horne was shot through the brain and died in less than a minute. Horne came to Atlanta from Cincinnati a few years ago. He was the owner of large granite quarries, and had a contract for building the State Capitol. Venable is in jail. The affair causes intense excitement on account of the prominence of all parties connected with it.

It appears that a few weeks ago Venable met Venable, who was a former associate at Stone Mountain, whither he had escorted a young lady. Words passed between them, and Venable was guilty of a breach of the peace sufficient to cause his arrest, and he was fined \$25. Venable, who is quite prominent and wealthy, was very angry, and threatened to punish Venable on sight. They did not meet, however, until tonight, shortly before the tragedy. A. M. Lewis, of New York, and a party of Atlanta quarry owners, Venable among them, were spending the evening in a room at the Kimball house, when there came a rap at the door and Venable entered. He was an acquaintance of Lewis, and was about to be introduced all around when friends who knew the trouble between him and Venable interfered and asked Venable to accompany them to another room. As they were about going out Venable spoke up, saying "Gentlemen, I wish in advance to apologize for what I am about to say, and it is this. This man Venable, who has just entered the room, has done me a mean, cowardly trick, and has taken advantage of me in a manner that places him beyond the pale of gentlemen, and I denounce him as a cowardly creep." He then asked him to go and settle their difficulties there and there.

Venable started to say something about Lewis taking an advantage of him, when the latter slapped him in the face. The two men clinched, and fell wrestling. Venable was beneath, fired excitedly twice, and Lewis was killed.

Both the contestants were badly punished, and Venable was arrested dripping with blood as he was making his way from the hotel through an alley.

PHRASE-WORTHY.
"Last night we were actually laid up with liver complaint, a friend advised me to use Burdock Blood Purifier, I did so, and four bottles cured me. I cannot praise it too much." John H. Rivers, Orr Lake, Ont.

The Labrador Fishery.
PROSPECTS OF A GOOD SEASON—FISHING NEWS.

HALIFAX, N. S., August, 10.—There are good grounds for believing that there will be a successful season on the Labrador coast this season. Never perhaps was such a result more desirable, after the dismal failure of the Labrador fishery of the previous year, as an unusually large number of Newfoundland fishermen have resorted there, finding the prospects of the shore fishery in northern bays discouraged. If their toils should be rewarded and the expected improvement in the foreign market realized, anxiety about the coming winter will be greatly relieved. Favorable weather is bringing a change for the better, and from most of the fishing centres along the shore recent news is more cheering.

Jumping From a Balloon.
ROCKAWAY BEACH, Aug. 10.—Professor Thomas S. Baldwin, of San Francisco, successfully repeated his feat of jumping from a balloon in mid-air to the earth by the aid of a patent parachute. It is estimated that at least 30,000 persons witnessed the jump.

About 1,100 feet above the earth Baldwin prepared to jump. With a spring swing into mid-air. Simultaneously the parachute filled and the daring jumper descended gracefully and gradually. With a loud splash, Baldwin dropped into the bay about an eighth of a mile from where he started in the balloon.

Worms Struggle the White System. Mother Graves Worm Expeller drenches worms and gives rest to the sufferer. It only costs twenty-five cents to 17½ and is convalesced.

The Spread of Cholera.
ROME, Aug. 10.—Four new cases of cholera and four deaths from the disease were reported in Naples on Monday; nine new cases and four deaths in Ravenna, and several cases in Palermo, Messina, Syra, and August.

ROME, Aug. 10.—The receiver of registers and census and his family have fallen victims to their devotion to cholera patients. Of the whole family a little child survives.

An End of the Drought.
MILWAUKEE, Aug. 10.—Last night a gale swept over the city, the wind blowing at the rate of a mile a minute. The main buildings and several minor structures, on the state fair ground at Cold Springs park, were completely wrecked. The rain is putting an end to the drought that has lasted for 60 days.

Low's Balm for Rheumatism should be found everywhere. It is a dressing and liniment.

Dr. J. D. Kelley's Dysentery Cordial is a specific cure for dysentery, diarrhoea, cholera, summer complaint, and all other ailments of the bowels. It is a powerful purgative and is perfectly safe in its action. It acts with wonderful rapidity and never fails to cure.

Children Cry for Pitcher's Castoria.

The Burning Copper Mine.

Houghton, Mich., Aug. 8.—At 10 a. m. the condition of the Colburn & Hacks mine is still the same. The shaft is all sealed and the mammoth boiler converted into a machine for generating carbonic oxide gas, which began operations last evening, forcing large quantities of the gas down the burning shaft. The entire mine is now charged with inflammable gas that the prospect is not encouraging that the fire is extinguished. Three miners, Walter Lian, Geo. Bennett and Richard Bennett, were sent to close some crevices in the main engine shaft of the mine this morning, when the carbonic gas entered and so strong that Richard fell senseless. He was heroically rescued by his comrades, who were also overpowered. Considerable time elapsed before all were resuscitated. They were only twelve feet below the surface.

A Dangerous Gang.

SEVERAL OUTRAGES COMMITTED BY A GANG OF ROBBERS IN QUEBEC.

QUEBEC, Aug. 10.—A young man named Tessier, 22 years of age, said to be a member of an infamous gang, kidnapped and outraged a little girl named Giroux of some 12 or 13 years of age, on Monday, while the latter was carrying dinner to her father, who is employed by Messrs. Hallat Montmorency mill. A woman passing who attempted to rescue the child, was harshly and threatened with death if she did not get away. The child may recover. Tessier was arrested yesterday in Beauport church. He belongs to a gang locally known as the Red and Green Gang, who have for some time been spreading terror in the place. It is stated that numerous other outrages of the same kind have already been committed by members of this organization, but that they have been hushed up either through fear or bribery. It appears that the young girl who was kidnapped at St. Sauveur last week while walking with her sweetheart was the victim of a similar outrage on the part of three unknown ruffians who carried her off. She has since returned to her home, and is now lying dangerously ill. Her cowardly assailants are still at large.

Give Them a Chance?

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the large air passages, but the thousands of little tubes and capillaries leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot do their work. And what they do they cannot do well. Cough, cold, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and lung obstructions, all are bad. All ought to be got rid of. This is just one more way to get rid of it. That is to take Brooker's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain.

PROMPT RESULTS.

"I was very sick with bowel complaint. Two physicians did me no good. I tried other remedies but all was so good until I tried Dr. Williams' Pink Pills. The first bottle was like a different man." Geo. H. Proctor, of St. Louis.

CATARHITICURE, health and sweet breath secured by St. John's catarrh Remedy. From 50 cents. Nasal Injector Free. For sale by E. Templeton.

ROCKAWAY BEACH.

A SUMMER LULLARY.

The sun has gone from the shining sky, and the moon has taken his place. The children are sleeping, and the world is at rest. The summer is over, and the autumn has begun. The leaves are falling, and the air is cool. The children are sleeping, and the world is at rest.

AN OLD FAVORITE.

An old favorite, that has been popular with the people for many years, is the story of the boy who was born on a hill. The boy was born on a hill, and he was born on a hill. The boy was born on a hill, and he was born on a hill. The boy was born on a hill, and he was born on a hill.

A Mother's Word.

"My children brought their contributions to the missionary cause," we heard a mother say one day at a woman's conference. "I told them to bring their contributions to the missionary cause, and they brought their contributions to the missionary cause. I told them to bring their contributions to the missionary cause, and they brought their contributions to the missionary cause."

MORE REMARKABLE STILL.

Found at last, what the public have been looking for many years, and that is a medicine which although it is called "Bitter," is not a bitter. It is a medicine which although it is called "Bitter," is not a bitter. It is a medicine which although it is called "Bitter," is not a bitter.

DANGER OF DELAY.

If we were allowed to look into the lives of the people, we should find that many of them are suffering from the same disease. The disease is called "Bitter," and it is a disease which is caused by the use of "Bitter." The disease is called "Bitter," and it is a disease which is caused by the use of "Bitter."

THE TRIUMPHANT THREE.

"During three years suffering with Dyspepsia, I tried almost every medicine. I tried almost every medicine, and I tried almost every medicine. I tried almost every medicine, and I tried almost every medicine. I tried almost every medicine, and I tried almost every medicine."

THE YEAR ROUND—National Pills.

These pills are a good thing, and they are a good thing. They are a good thing, and they are a good thing. They are a good thing, and they are a good thing. They are a good thing, and they are a good thing. They are a good thing, and they are a good thing.

SPENCER'S Ophthalmoscopic Test Lenses.

Will detect all visual defects. A scientific method of detecting all visual defects. A scientific method of detecting all visual defects. A scientific method of detecting all visual defects. A scientific method of detecting all visual defects. A scientific method of detecting all visual defects.

THE NEW GUY, THAYER, & Co.

And all other goods and services.

Two Ways of Looking at Things.

When it rains one man says, "This will make mud." Another says, "This will wash the dirt off the roof." The world is full of people who are looking at things in different ways. Some people are looking at things in a pessimistic way, and some people are looking at things in an optimistic way.

AN OLD FAVORITE.

An old favorite, that has been popular with the people for many years, is the story of the boy who was born on a hill. The boy was born on a hill, and he was born on a hill. The boy was born on a hill, and he was born on a hill. The boy was born on a hill, and he was born on a hill.

A Mother's Word.

"My children brought their contributions to the missionary cause," we heard a mother say one day at a woman's conference. "I told them to bring their contributions to the missionary cause, and they brought their contributions to the missionary cause. I told them to bring their contributions to the missionary cause, and they brought their contributions to the missionary cause."

MORE REMARKABLE STILL.

Found at last, what the public have been looking for many years, and that is a medicine which although it is called "Bitter," is not a bitter. It is a medicine which although it is called "Bitter," is not a bitter. It is a medicine which although it is called "Bitter," is not a bitter.

DANGER OF DELAY.

If we were allowed to look into the lives of the people, we should find that many of them are suffering from the same disease. The disease is called "Bitter," and it is a disease which is caused by the use of "Bitter." The disease is called "Bitter," and it is a disease which is caused by the use of "Bitter."

THE TRIUMPHANT THREE.

"During three years suffering with Dyspepsia, I tried almost every medicine. I tried almost every medicine, and I tried almost every medicine. I tried almost every medicine, and I tried almost every medicine. I tried almost every medicine, and I tried almost every medicine."

THE YEAR ROUND—National Pills.

These pills are a good thing, and they are a good thing. They are a good thing, and they are a good thing. They are a good thing, and they are a good thing. They are a good thing, and they are a good thing. They are a good thing, and they are a good thing.

SPENCER'S Ophthalmoscopic Test Lenses.

Will detect all visual defects. A scientific method of detecting all visual defects. A scientific method of detecting all visual defects. A scientific method of detecting all visual defects. A scientific method of detecting all visual defects. A scientific method of detecting all visual defects.

THE NEW GUY, THAYER, & Co.

And all other goods and services.

IT IS NOT DISPUTED.

That the new medicine is a good one, is not disputed. It is a good medicine, and it is a good medicine. It is a good medicine, and it is a good medicine. It is a good medicine, and it is a good medicine. It is a good medicine, and it is a good medicine.

A Wrongo Opinion.

Many a dollar is paid for prescriptions for diseases that never trouble the patient. The patient is given a prescription for a disease that never troubles the patient. The patient is given a prescription for a disease that never troubles the patient. The patient is given a prescription for a disease that never troubles the patient.

Burdock BLOOD PURIFIER.

Will cure or relieve BILIOUSNESS, DIZZINESS, INDIGESTION, FLUTTERING OF THE HEART, ACIDITY OF THE STOMACH, RHEUMATISM, HEADACHE, AND ALL OTHER DISEASES OF THE BLOOD.

THE President of the Royal Society on

Her Majesty the Queen having on two

occasions during the past year sent messages

to the Victoria Institute signifying her

pleasure in accepting the volumes of its

Journal, and the fact that its annual ad-

dress was to be delivered by its recently

elected President, Professor G. G. Stokes,

the President of the Royal Society, caused

special interest to attach to its annual pub-

lication at 7, Adelphi Terrace, London, at the

end of July. A large company, therefore,

assembled, Captain James Pease, Pres-

ident of the Royal Society, presiding, and

representing the numbers of the colonial and

American members and associates was

presented to the President, Lord Kelvin, Sir

William Dawson, C.M.G., F.R.S., Sir

W. W. Rouse Ball, F.R.S., Sir Joseph

Fryer, K.S.I., F.R.S., Sir R. B. R. R. R.

New :: Carpets.

WE have just had notice that our imports of Carpets for the fall trade are now on the way, and will be here in a few weeks. To make more room for them, as the shipments are large, we will offer

DECIDED BARGAINS IN CARPETS.

until the end of the month. We require the room for the new carpets, and will offer great inducements to those who will purchase early. These call at once should you require any carpet. We will sell them cheap.

REMNANTS.

The balance of our SUMMER REMNANTS will be sold off before the end of the month at still greater reductions. This month we must get everything ready for the fall trade.

GLASGOW WAREHOUSE.

JAS. W. DUNNET,
Belleville, Aug. 19th, 1887.

PROBABILITIES.

TORONTO, AUG. 18.—Moderate to fresh west and north winds, fine and a little cooler.

Quinte Fair.

The Directors and others interested in the Quinte fair will meet at the Council Chamber to night.

Send Banks Excursion.

There was a small turnout to the Sand Banks excursion this morning. About 75 people went from Belleville.

A Trip in District.

A tramp in quest of assistance called at the Mayor's office to-day, and while awaiting an audience was seized with a fit.

Beisel Hall Outing.

The Beisel Hall Franchises had an excursion to the Murray Canal today by the Nellie Culbert. Although the air was cool, there was a good turnout.

No Luck.

A party of three fishermen tried their luck along the south side of the bay yesterday afternoon. One of the others captured a small perch. The other did not get a nibble.

Her Last Appearance.

Miss Ethel Thomas leaves for Toronto in two weeks, and will appear before a Belleville audience on Tuesday evening for the last time. Miss Thomas will attend the Conservatory of Music in Toronto.

Commercial Union.

Means, Geo. D. Dickson and J. W. Johnson are announced to address a Commercial Union meeting at Amherstburg on Thursday next. It will be held under the patronage of the Prince Edward Farmers' Institute.

TEMPERATURE.

As Registered by Dr. Bell's Self-Registering Thermometer.

FRIDAY, AUGUST 19, 9 a.m.
Maximum 77, minimum 57.
Barometer 29.90.

Saturday's Excursion.

A grand excursion is announced to Platon on Saturday, Aug. 20th. Round trip only 25c., by the safe steamer Alexandria. Steamer leaves the Bathing Co. wharf at 3 p.m., touching at Deseronto both ways. Home at 11 p.m., sure. Time is given for time to Platon.

Have We the Secret of England's Greatness?

The Ottawa Patriot says: "The fighting editor of this journal has discovered that sparrow pie is a great liniment of the muscles. We charge nothing for this information. A kindly regard for suffering humanity inspires us. The English sparrow pie" says the orthologist, is a destructive nuisance. Why not go to sparrow pie?"

Dead and Buried.

The Belleville Dalrymple's Board of Trade is dead and buried for the season. The Board was in a healthy state during the season and will no doubt thrive again next year. The following is the Secretary, Mr. F. W. Brenton, last report:

Belleville, August 18th, 1887.
Liverpool cable, 7/4 65.
No offerings at the Board to date, most of the factories having contracted season's make.

Only two members present, Hon. Robt. Read and the Secretary, who thought it advisable to adjourn the Board sine die.

When Italy was sick, we gave her Castoria. When she was a child, she clung to Castoria. When she became a man, she clung to Castoria. When she had children, she gave them Castoria.

Children Cry for Pitcher's Castoria.

Tom Sullivan's Idea.

Tom Sullivan is a cunning out in the rule of hot building. He has a new idea, a new power, and is building a yacht which will give expression to that idea.

Low Water.

The water is low in the bay, the lake, and the river, and the boats are out earlier in the season, has been removed. The boat was about as far below the dock this morning as it was above, four months ago.

Local Shipping.

The shipping interest is very slack just now. The schooner Pictou passed up to Kingston this morning to load with lumber for Oswego.

Water Works.

The walls of the engine house are completed and ready for the roof. The difference is down on Wharf street, and the pipes are down and the trench filled below Dundas street. The cause of many petitions to the Council was of water from the plain, is as good as removed.

Government Officials.

The periodical inspection of the gas and weights and measures standards in the office of Mr. Wm. Johnson is now going on. Mr. John, Esq., District Inspector of Gas officers, and Wm. J. Johnson, Esq., Chief Inspector of Standards, are in the city for those purposes.

Excursion to Murray Canal.

The steamer Annie Gilbert, on Saturday the 20th, will leave her wharf at 2 p.m. for Murray Canal, passing through the new bridge and running up the canal as far as Smithville bridge, giving parties an opportunity of seeing the new bridge opened, and seeing a good portion of the Canal. Fare 50c.—LARK & JENKINS.

FARMER'S WORM POWDERS are safe, sure and speedy to remove worms from children of adults.

Grain Receipts.

Grain receipts are very light. Farmers are threshing their grain and storing it. This lack of activity shows either that the prosperity of other years has not been yielded or that the farming community have been so busy with the harvest that they cannot get to the threshing machine. If they can hold the crop until the price suits them they have reserve cash and are not suffering.

Personal.

Mr. John Miller, formerly of this city, but now a prosperous merchant at Seaford, is in the city.

Prof. Riggs went to Cobourg this evening to lead the Cobourg Band in an engagement to-morrow.

Major Crozier is spending a few days at the Sand Banks.

Mr. Wm. Johnson went to Platon this afternoon on business connected with the Weights and Measures department.

Fishing for Bass.

The Ontario's Private Fishing Party down the Bay—Their Record of Success.

The Ontario carried a jolly party down the bay Wednesday. They were guests of Mr. Matheson, Superintendent of the station, and their destination was the lake in the vicinity of Northport. The weather was propitious, the fish in a frolicsome humor, and the sport fast and furious. There were some expert anglers, and others who thought they were experts, so the game fish had a lively time of it. Just how many were safely bagged our reporter did not learn, but some two score may be mentioned as not far above the number. Many fine specimens were lost, the lucky angler, not being an expert in handling the rod as they imagined. Some of the party hooked up fish scarcely got a nibble, and they were duly contented by the more fortunate ones. We promised not to particularize, as names are not mentioned. Among the company, besides Mr. Matheson's family and others of the Institution, were Mr. Cameron, managing director of the Globe; Mr. and Mrs. Belts, of London; Mr. and Mrs. McCarthy, of the "Ontario" returned to her dock about 9 p.m., all having enjoyed a delightful day's outing.

CHERRY, ONT., May 2nd, 1887.

Head Balm is good medicine for a sore throat.

JNO. M. MCCONNELL.

MERE MENTION.

A MEETING of those interested in the third class yacht race will be held at the INTELLIGENCER office to-night.

Max, A. A. Campbell will resume her music lessons on September 1st, when she will have vacancies for a few more pupils.

OUR CUSTOMERS try our best; our talk and little glove must go; our remembrance must go; No reasonable price will be refused for them.—J. H. HENNESSY.

THERE will be no services in St. Andrew's Church next Sabbath on account of repairs going on. There will be a service at the same place on September 1st.

SUCCESS.—By our prices and fit we are determined to make our tailoring department an immense success this fall. We have the largest stock of tweeds shown in Central Ontario.—J. H. HENNESSY.

Remember Mrs. York's farewell concert in the City Hall, Tuesday August 23rd. Local talent and Philharmonic orchestra. Admission 25c. Commence at 8 p.m.

As this season of the year all are liable to sudden attacks of cholera, cramps, etc., and should have at hand a reliable remedy for such trouble. Holden's Cholera Drops will be found just such a remedy. If your own druggist has not got it, go to Green's drug store, where it is in stock. One twenty-five cent bottle may prevent you a great deal of pain.

Do not fill the system with quinine, or quinine and sugar. Ayer's Cathartic Cure is a reliable remedy to produce digestion, cleanse the bowels, and cure all disorders.

Children Cry for Pitcher's Castoria.

Baseball Notes.

The Kingston News—organ of the Park Nine—says that club will not play any more championship games, and the fact that Burke, the pitcher, has returned to Rochester, would seem to confirm the statement. This determination is given in fact for the Belleville, who have had to do greening with them; but it is probably due to the fact that the Belleville Club have won three games in the championship series, Monday. The Kingston News says that Monday's game here: "The INTELLIGENCER is not itself when it intimates that the report written in Belleville is false. We insist upon nothing, but quote from the absolute fairness and accuracy of a report, which are written on the field as the play progresses. The score which we published was the official score, as recorded by Mr. J. McCullough, the official scorer of the Belleville Club, and our own photograph of the game shows that that score is correct. Belleville made 14 hits, as follows by innings: 1, 1, 2, 3, 0, 3, 3, and the Park Nine made 13, as recorded. We do not write up this or write down that club on commercial principles, as some of our contemporaries do, and our reports are always to be relied upon, as they are not re-written from memory or scant notes." The Belleville played the Kingston at Kingston this afternoon.

Sporting Notes.

Baseball yesterday.—Toronto 11, Jersey City 2; Hamilton 2, Newark 5. The Kingston-Belleville Baseball League, for as the Park Nine club is concerned, is said to be at an end.

McKinley, who went to Kingston to pitch for the Kingston, but was unable to carry out his agreement in consequence of a sore arm, had an operation performed on it by Toronto yesterday. It is said that McKinley will be able to throw the ball as well as ever he did in a few days, in which case he rejoins the Kingston.

The Canadian cricket team has won a victory by defeating the Gentlemen of Warwickshire by an innings and 25 runs. Score—Canada, 504; Warwick, 10 and 73; total 170. For the Canadians, R. Ogden bowled well and made 58 runs.

To Avoid Locks or Gray Hair.

Use Dr. Doremund's Great German Hair Magic. It keeps the scalp clean and free from dandruff, and promotes the growth of the hair. It prevents premature graying and stops any falling out of the hair. On bald heads, where the roots have not perished, it will invigorate them and force a new growth of hair. Ask for Hair Magic. It is the only reliable hair restorer. For sale by all druggists in Belleville and all parts of Canada.

M. Sheehan, of Omaha, Mich., writes: I have used Dr. Doremund's Electric Oil on horses for different diseases, and found it to be just as effective as recommended. It is a good thing to have every time, and it is the best oil for horses I ever used.

Loan and Building Societies.

The annual statement of the Loan and Building Societies in the Dominion of Canada for the year 1886, will be published in next Saturday's Ontario Gazette. From it it appears that there are ninety-four companies doing business, of which seventeen, for various reasons, do not make returns. The total liabilities of the companies making returns is \$98,755,218, being \$6,250,707 less than last year's total of \$105,005,925, being \$6,045,427 less than last year's. The dividends declared vary from 10 per cent. by the Commercial Building and Investment Society of Toronto, to three per cent. by the Scottish Ontario and Manitoba Land Company of Toronto.

A Sociable Proceeding.

MEMBERS of an I. O. F. LODGE VIDE THE FUNDS WHEN THE LODGE MEET.

HAMILTON, Aug. 18.—Proceedings will be commenced in the courts at once against the recent members of Burlington Lodge, I. O. F., by the Grand Lodge. The lodge disbanded recently, and the members divided up the funds on hand, \$1800 between them. All but four members received a share of the money. These four were Mr. Richardson, James Allen and Wm. Kerns, M. T. F. of Burlington, and Dr. MacKenzie, of Hamilton. The members will be proceeded against individually.

Feature of an Oil Firm in Montreal.

MONTREAL, Aug. 18.—W. E. Elliott & Co., dealers in lubricating oil, etc., 58, James street, assigned this afternoon with liabilities of about \$50,000. The assets have not yet been made known. The insolvents declare the cause of their failure has been the large amount of accommodation paper they have been dealing in and general depression in the oil trade.

Queen's Matriculation.

Five candidates from the Belleville High School went for examination in matriculation into Queen's University, and one of the number was successful as a public. In the Mail, the following names are recognized as from Belleville, viz: J. M. Moore, S. O. Hulme and T. A. Ables.

Death of Phenology at Fowler.

POUGHKEEPSIE, N. Y., Aug. 18.—Prof. O. S. Fowler, the noted phenologist and lecturer died at his residence near Sharon Station, Conn. this morning, after an illness of only 30 hours. The cause of death was spinal trouble, superinduced by a heavy cold.

Kingston's rate of tax is \$163 mills. Pennsylvania Republicans have declared for Blaine.

The Detroit Commercial Union meeting is to be held on August 27.

It is seemingly the intention of the cholera in Sicily has been overcome.

A Russian police officer says the revolution movement is spreading rapidly.

An attempt was made yesterday to wreck a passenger train on the Chicago and North-western.

The two Montreal whole sale grocery firms who refused to enter the grocery combination, and who in consequence were unable to purchase sugar in Canada, have carried the war into Italy, by importing a large quantity from Scotland, which they offer for sale at much lower price than is charged by the combination.

Another Running Plot.

REUTERS, Aug. 18.—It is rumored that a "Russian secret" society has formed a plot to murder Prince Ferdinand.

PARIS, Aug. 18.—A despatch from Varna says the Frigate of the Bulgarian navy, the Constantine, has been published an encyclical letter declaring Prince Ferdinand an assassin.

LONDON, August 18.—The Standard warmly supports Prince Ferdinand, and remarks that the constant speculation and hostility in his favor will be fatal. If he continues in his present course, says the Standard, he may ignore Russia, and Russia may ignore him. The Standard says that the Government of the country may be compelled to act circumspectly. The Standard says that Sofia has been instructed to continue administrative relations with the Bulgarian Government, but to avoid anything of a nature that might lead Prince Ferdinand to suppose that Germany was holding friendly relations with him. The French Consul in Bulgaria has been instructed to discontinue even business relations with the Government.

The Cologne Gazette complains of the tone of the North German Gazette, and says that Germany has no call to do Russia's business for her in the East.

VIENNA, August 18.—The Standard says the recognition of Prince Ferdinand by some of the powers is sufficient to make his election valid in accordance with the Berlin treaty.

VIENNA, August 18.—Prince Ferdinand has issued a general order appointing the chief command of the Bulgarian army.

Indian Treachery.

THE WHITE RIVER TRIBES GIVING MORE TROUBLE TO CANADIAN.

DENVER, Col., August 18.—Sheriff Kendall, came into Meeker Tuesday night bringing with him four of Colorado's men for the purpose of holding a pow-wow. The Indians ask that 15 days be granted them in which to reach the reservation in Utah, and the being granted the Indians asked an escort through the settlement on their return to Colorado. Two men were sent, one being a Mormon interpreter. When outside the town the Indians turned upon the escort with knives and severely wounded them. The whites were also fired upon by a party of Utes in ambush but neither one was hurt. Sheriff Kendall has telegraphed Governor Adams that no time shall be lost pushing troops to the front as rapidly as possible, as he anticipated an attack upon Meeker and all unprotected settlements and ranches as soon as Colorado's three bands are united.

Pooria Railway Error.

THE CORPORATION'S JULY RENDS THE SECTION BORN ACCOUNTABLE.

CHATHAM, Ont., Aug. 18.—The coroner's jury in the railroad disaster after a deliberation of three hours returned a verdict that Section Bore Oughlin was guilty of gross criminal negligence in leaving fire burning across the track. It was recommended that he be held to go before the grand jury. The company are censured for not having the track patrolled all the evening. Oughlin will be arrested.

Elford Waters, of the Pooria Watch company, injured in the recent accident, died this morning. He had a hole in his thigh as big as a man's wrist together with internal injuries, but he bore up so bravely that the physicians dubbed him the "hero." He died last night, when blood intervened and he sank slowly.

The Pacific Coast.

CONFESION OF MURDER—A BOAT'S CREW MURDERED AND THE VESSEL BURNED.

VICTORIA, B.C., Aug. 17.—Quimlet, the Indian arrested at Comox for the murder of Dring and Miller, has confessed to the intelligence of the missing schooner Sea Bird, has been found out since Seymour Narrows. An Indian confessed that Capt. Moore and his crew were murdered and the schooner crew so as to hide the evidence of the crime.

OHIO.

HALIFAX, N. S., Aug. 17.—The Hon. John Hamilton Gray died at Charlottetown, aged 76. He was an officer in the Dragoon Guards and served in India and Africa. After assisting in the formation of the militia in England he returned and became Premier of Prince Edward Island in 1862, and two years later he presided over the celebrated Maritime conference which subsequently resulted in the Quebec conference and confederation.

Two Well-Ascertain Facts.

(Hamilton Spectator.)

It is very evident that the inquiry "dispute" is settling itself. Two facts are pretty well ascertained: first, the mackerel do keep inshore—fairly well within the three-mile limit; secondly, the Yankee fishermen are fairly well kept outside the three-mile limit.

Alghan Frontier Negotiations.

LONDON, August 18.—A blue book on the Afghan frontier negotiations has just been issued. It shows that the final settlement is based upon equal and mutual concessions. Afghanistan concedes rather a larger area of territory; but that is valuable, while the Russian concessions will be the source of a small income to Afghanistan.

Lacer has not Resigned.

BAR HARBOR, Me., Aug. 18.—Secretary Whitney arrived here last night. The Secretary states the pleasant relations existing between himself and Admiral Lacer is not resigned but has asked to be relieved from this station.

VERY VALUABLE.

"Having used H. H. M.'s Compound Antacid Liver, with the very best results. I would like to purchase some for Canada, have carried the war into Italy, by importing a large quantity from Scotland, which they offer for sale at much lower price than is charged by the combination."

Children Cry for Pitcher's Castoria.

Steamship Burned at Sea.

THIRTEEN LIVES LOST.

(By Telegraph.)

QUEENSTOWN, Aug. 19.—The steamship York City arrived here today and brought the news of the burning of the City of Montreal. She had on board the crew and passengers of the ill-fated steamer, with the exception of 13, who perished. The York City was en route to London from Baltimore.

An Autumn Session.

LONDON, Aug. 18.—At a meeting of the Cabinet to-day various measures were discussed, and it was finally decided to hold an autumn session of Parliament. It is considered that numerous reform measures will be brought forward at the session in the autumn.

Henry M. Stanley Hair.

LONDON, August 18.—Letters were received yesterday from Henry M. Stanley, dated June 13th from Gambia, a village near the Rapids of the Aruwimi, reporting himself and all well.

A Canadian Bank Suspends.

LONDON, Ont., Aug. 19.—The Bank of London suspended payment this morning.

"BLACKMET" a lasting and fragrant perfume. Price 25 and 50 cents.

Lord Herby, Lord High Chancellor under Mr. Gladstone's Administration, with Lady Herschell, arrived yesterday in Montreal.

—Mr. Chapleau, Secretary of State, has not reached Paris yet, the injury to his foot compelling him to make a lengthened stay at home.

—A number of cars loaded with coal, that were placed yesterday on the C. P. R. spur line at Morris to prevent removal of the rails at the crossing.

It is expected that the Montreal Stock Exchange by law preventing members from having dealings with bucket shops will come into force September 1st.

—It appears that some of the Canadian cruisers were anywhere near Buenos Aires when the affair reported by the New York Herald was said to have taken place.

—European despatches indicate that Prince Ferdinand was now the implicit endorsement of England, Austria and Italy, the neutrality of Turkey and Germany, the active hostility of Russia and France, and the attitude of the United States, if he stands firm he will likely win.

—Mr. Fitzgerald, liquidator in Canada of the British Medical Life Association, informed Canadian policyholders that premiums should be paid to the head office in England, but that, though not legally authorized to do so, he is willing to receive them until the policyholders decide on their course of action.

—The White River Tribes giving more trouble to Canadian.

—The Pacific Coast.

—Two Well-Ascertain Facts.

—Alghan Frontier Negotiations.

—Lacer has not Resigned.

—VERY VALUABLE.

—Children Cry for Pitcher's Castoria.

—Steamship Burned at Sea.

—THIRTEEN LIVES LOST.

Daily Intelligence.

Summary of the crops.

Ontario's Agricultural Year

From the Drouth.

Secretary Blue of the Bureau of

Industries has issued a carefully prepared

summary of the agricultural statistics of Ontario

for this year, compiled from returns

by the farmers of the province under

date of June 25, together with a digest

of reports made on Aug. 12 by nearly

600 independent of the Bureau on the

crop and harvest, and the yield of principal

crops computed from their estimates.

The source, temperature and summer

records of Ontario this year show

considerably higher than those of

1886, but the average of rainfall

is considerably less. The mean

New Carpets.

We have just had notice that our importation of Carpets for the fall trade are now on the way, and will be ready to ship in a few days. To make more room for them, as the shipments are large, we will offer

DECIDED BARGAINS IN CARPETS, until the end of the month. We will sell the room for the new carpets, and will offer great inducements to clear out the present stock. Please call at once should you require any carpets. We will sell them cheap.

REMNANTS.

The balance of our SUMMER REMNANTS will be sold at the end of the month at still greater reductions. This month we must get everything ready for the fall trade.

GLASGOW WAREHOUSE. JAS. W. DUNNET.

Belleville, Aug. 17th, 1887.

Daily Intelligence.

BELLEVILLE, FRIDAY, AUG. 26.

Madoc Mail.

The Madoc mail will leave for Belleville at 1 p. m., instead of 1.30, as in the past.

Band Concert.

The complimentary concert to Mr. W. B. Rigney by the members of the I. O. O. F. band will be given at the Bicycle Park to-night.

Front Street.

Front Street is being cleared of refuse from the Water Works excavation, as fast as possible. But that work is progressing very slowly.

Frontion Filled.

The position formerly held by Mr. Brown in the Rathbun Co. office, has been filled by Mr. E. Armandy of Beaufort. He is bookkeeper and operator.

A Good Suggestion.

The Fitchburg Gazette suggests that steam boat owners on the Bay of Quinte route hotel men and liveries advertise the attractions of the bay during the winter and early spring months.

TEMPERATURE.

As registered by Dr. Bell's Self-Registering Thermometer.

Excursion to Pictou.

The steamer Armenia will carry an excursion to Pictou tomorrow from Frontenac and Belleville. The boat will leave here at 3 p. m., calling at all way ports. The Armenia's excursions have been very popular this season and that of tomorrow will be no exception.

Waste of Water.

Hackmen, carriers and others are growing about the waste of water at the tank on the station road, at the foot of Albion Street. The trough has been left best days and cannot hold water. A new one would cost but a trifle and good water should not be allowed to go to waste.

Assault Case.

Wm. McCracken, Jr., and David Orr, were each fined \$5 and costs for assaulting Richard Snell. Snell ran into the Albion Hotel at 11 o'clock one night, recently to get shelter from a rain storm. There was no one around and the defendants took him for a stranger and struck and knocked him down without provocation.

To Avoid Baldness or Grey Hair.

Use Dr. Derrived's Great German Hair Magic. It keeps the scalp clean and free from dandruff, and promotes the growth of the hair. It prevents premature graying and stops any falling out of the hair. On bald heads, where the roots have been paralyzed, it will invigorate them and force a new growth of hair. Ask for Hair Magic. It is the only reliable. For sale by all druggists in Belleville and all parts of Canada.

Public School Temperance.

We are in receipt of a copy of this new book from the publishers. It is the work selected and authorized by the Department of Education, in accordance with the amended Act, for use in our Public Schools. The object of this book is to impart to the young attending of school a knowledge of the competition and effects of alcohol, with a view to impressing their minds with the danger and the necessities of contracting the habit of its use. This author is the celebrated Dr. Richardson, of England, than whom no better authority on this subject is to be found.

When Tully was sick, we gave her Castoria. When she was a child, she used Castoria. When she became a mother, she gave her Castoria. When she had children, she gave them Castoria.

Bell Excursion Postponed.

The Bell excursion has been postponed for one week, owing to the str. Alexander being detained at the Cornwall canal.

PROBABILITY.

Toronto, Aug. 25.—Moderate winds, falling to northerly, fair, cool weather, followed by light rain to night in the southern portion.

A Public Drain.

A drain 250 feet long is being built by the corporation on Betts and Elgin streets in Blackwell Ward. Street Surveyor Taylor is supervising the job.

District Meeting.

The annual financial District meeting of the Methodist churches on the Belleville District is to be held in Holy Trinity church in this city on next Monday at 10 o'clock.

The Amateur Regatta.

The amateur regatta for third class yachts was sailed this afternoon. Chas. Lapoint, it is said, borrowed the balloon pig of the loan for his flyer. The fun must have been fast and furious.

Acknowledged the Office.

Jas. Flemming, of the Munro House, Toronto, against whom a charge had been entered for selling liquor through prohibited houses, came to the city yesterday, acknowledged the offence, and paid a fine of \$20 and \$10.00 costs.

A Witness Wanted.

The liquor case against Hugh Collins, of Foxboro', is further from a solution now than when it first entered court. The principal witness in the case, Wm. Deban, cannot be found. In the meantime the case is enlarged pending developments.

A Popular Intelligence.

Albert Gault, will open, on Sept. 6th, already more students have applied for quarters than have attended the college during its most successful year. There are 50 sleeping rooms in the building. They are all taken and a large number of students have been billeted at private houses. Prof. Dyer is the most successful principal the college has had. The staffing of the school never was higher and the number of students coming in from all over the province is well recognized. Seven students are from British Columbia, twelve from Quebec, and nine from the city of colleges and schools, Toronto. An addition to the building will be needed next year.

Low's Service Shop should be found with every trip.

Commercial Union.

The Resolution Adopted by the Prince Edward County Farmers' Institute.

A Commercial Union meeting was held at Amnaburgh yesterday, under the auspices of the Farmers' Institute of Prince Edward County. The attendance was large.

Wm. Anderson, Esq., President of the Institute, presided. Several members of the meeting were also present. The speakers were W. H. Johnson, G. D. Dickson, Esq., Q. C., R. C. Chute, Esq., and Wm. R. Allen, Esq., of Pictou. The latter was the only speaker in opposition to the scheme.

Before adjourning, the following resolution was adopted, and carried against it.

Moved by E. A. Bricker, seconded by D. A. Delong, and resolved, That in the opinion of this meeting Commercial Union, that is, the extension of the railway to the front interchange socially, commercially, and in every way positively, with the United States, is the best and most calculated to promote the best interests of the Dominion of Canada.

OSWEGO, N. Y., Oct. 25, May 11th, 1887. My wife suffered for five years with that distressing disease, catarrh of the bladder, and the worst kind of urinary trouble. She tried all the catarrh remedies I ever saw advertised, but they were of no use. I finally purchased a bottle of Sinal's Catarrh Remedy, and after using it for a few days, I was cured. I am now well and healthy, and I can say that Sinal's Catarrh Remedy is the only remedy for catarrh of the bladder, and it is the only remedy that will cure it. I can say that Sinal's Catarrh Remedy is the only remedy that will cure it. I can say that Sinal's Catarrh Remedy is the only remedy that will cure it.

MERE MENTION.

Prizes for the Water Works are still arriving.

SQUARE timber is arriving almost daily over the Midland.

WATSON 1300 men and boys to purchase rails and cross-ties at Henbury's.

We shall have something very special next week, look for it.—A. E. Fish & Co.

New collars and cuffs, new tie, new goods of all kinds, coming to hand daily.—A. E. Fish & Co.

Mrs. Martin's private school will reopen (D. V.) Sept. 1st. The same curriculum as public school. Music and needle work. Vacancies for a few more pupils.

It is believed that the representation of Red Ridinghood's Rescue will be one of the prettiest spectacles ever seen on the stage of our Opera House, Thursday, Sept. 1st.

Just fall two's and colorings, 100 pieces, new jerseys black and coral, 8 doz. all at low prices, new flannels, best quality, new goods, all at low prices, and an immense range of dress goods just beginning at 25¢. J. Hennessy.

At the season of the year all are liable to sudden attacks of cholera, cramps, etc., and should have at hand a reliable remedy for such trouble. Holden's Cholera Drops will be found just what a remedy. If your own druggist has not got it, go to the druggist where it is prepared. One twenty-five cent bottle may prevent you a great deal of pain.

Success—order that all may be accurately fitted with spectacles suitably to their different sight the firm of N. Stanley, of London, Ontario, intend sending a practical optician to this city, at Belleville, A. L. Green, on Saturday, 27th. There is no charge for examination, all who have to use spectacles should come and get a pair that will give them comfort and also preserve the eyes.

17923. If you desire to possess a beautiful complexion, clear skin, and remove all blemishes and pimples, use the "Pink Pills for Pale People." They will give you a bright and healthy appearance. Take it this morning.

Children Cry for Pitcher's Castoria.

Mysterious Death.

A Township Ward F. and Dead in the Woods.

Alto, Shavin, says the Newwood Register, a ward of the township of Dunsmuir, was found dead in the woods near Dr. McMillan's on Thursday last. Deceased lived in a shanty a few yards distant from Mr. Alto's. Small's residence and his usuals were handed in to him. On Tuesday disappeared and not returning on Wednesday morning Mr. Small located the body. Thursday the man had not returned and a searching party was organized to find the body. Finally a man named Patterson discovered his dead body lying at the foot of a large tree in a lonely spot of the woods. He found him lying large black and in a sup. Although the deceased was a heavy drinker, he had been so lately as though there had been whiskey in it. Before lying down he had taken off his boots and socks and placed them neatly at the foot of the tree; carefully hung his hat and coat on a limb, and then lay down in a sup. Small's opinion is that the bottle contained arsenic, and deceased deliberately committed suicide. It is supposed that the poison was procured in Newwood, as deceased was seen in the village the week before. Previous to his coming to Newwood he had asked a neighbor to bring him a glass of whiskey and the circumstances all point to deliberate suicide. The deceased had no wife, no children, no relatives, and from what could be learned of him, was a friendly man. His remains were interred in the Central cemetery on Thursday. As the deceased received no spiritual consolation in death, the usual burial service was not observed at the grave.

Nothing Like It.

Barnum's Show Greater than Ever Before.

The grand street parade of the United Barnum and London Shows will take place here on Sept. 6th, at 8 o'clock in the morning, to be followed by two performances in the mammoth tents. Never before in the history of amusements in this or any other country has there been so immense and stupendous a show as the one that Barnum will present on that day. The capital of the show has been increased to \$40,000, and every one of the many departments have been largely added, making the total expense over \$70,000. There will be three circus companies performing in three rings, each with its own elephants, upon an elevated stage 60 feet by 80 feet; there will be the Grand Hippodrome, with its glorious races, as only Barnum knows how to do it; the museum of living curiosities, with famous giants, dwarfs, etc.; the immense double menagerie, the life-like reproduction of dead old Jumbo, with the iron-bone articulated skeleton, and the Jumbo's widow; the wonderful hairy face; Captain Paul Boyton's aquatic performance in a specially constructed lake of clear water, the flying gymnastics and other curious features; besides other novelties, wonders and curiosities collected after three years of hard labor in all parts of the world, and exhibiting service of nearly every United States County those that will. It will certainly be a grand exhibition, and deserves the hearty approval of all classes.

Harry Lindley.

Last night's performance can be said to out-cavil to be undoubtedly one of the best given in the Opera House, whether as regards moral, variety, plot, humor, and interest. During the initial play, contains in its representation just the character which Lindley can shine if he will, but the audience to identify him with comedy that it is hard for them to understand the rugged, homely pathos he throws in the part of Fergus MacLellan. It is a very admirable blending of comedy and pathos. Miss Flint in grained herself thoroughly with the audience, and obtained full recognition of her merits. Mr. Madden gave a humorous rendition of Luke, and Miss Stanley as Mary was very much liked by the audience. The Infant Phenomenon displayed her successes last evening; her performance is worth the while and price of the ticket. There is a stability in her act that is as novel as it is peculiar.

So Wallers brought down the gallery with his song, and yells after yells testified his popularity. To-night Mr. Lindley gives the full of his recent acquisitions in the shape of a new negro drama, entitled "Block Gums" which contains five scenes, railroads, trains, etc. There is a fine matinee Saturday at 2.30.

School Notes.

Dr. Wright returned to the city last night. He has been rusticated at Prince Rupert, where he has been in the West since his holidays commenced, returning here on Wednesday evening.

The Octavia St. school will not be ready for fully two weeks yet, and consequently the pupils of that school are the envy of the pupils of all other schools. Two weeks more holidays than the law allows could be a good deal, especially when there is a circus coming.

All the schools (excepting Octavia St.) will open at nine o'clock on next Monday morning. Mr. John Johnston, I. P. S., has by circular requested all the teachers to be present, and that they must not diminish after organization as they have been accustomed to, but must go on with the work.

A small boy who will go to school for the first time next Monday, was given fifteen cents from his father yesterday, so "that he might get his hair cut awful short, for some of the other boys said that the teacher pulled hair."

The Committee of School Management are to meet to-night at the residence of Dr. Wright to consider the classification of the High School.

The Directors of the Board of Education to give the schools a holiday on "Children's Day."

The fees for admission of non-residents to the High school has been increased, being now, for term from September to Christmas \$5, from Christmas to July \$5, in all \$10 for the year.

A despatch from Mayor Biggar, skip of one of the Belleville riggers of bowlers at the tournament at Niagara Falls, says that Biggar beat Walker "Toronto," twenty at eleven. Lavinia beat Howard, "Toronto," twenty-five to fourteen.

Brain Fever.

Miss Ella O'Keefe, waitress for Mr. Wm. Stanley, of London, Ontario, was taken on Saturday and died this morning. She was a daughter of Mr. Daniel O'Keefe, Moira street, and was very highly respected.

Personal.

Mr. Walter Fuller, of Bass River, Col. has been elected to the position of collector at the Ontario Business College.

—Mr. VanHorne is reported to have stated that the Canadian Pacific Railway Company has decided to build the road through a new branch 70 miles this season.

Children Cry for Pitcher's Castoria.

Baseball Notes.

Readon, the new pitcher, practiced with Boston yesterday. The members of the club are well pleased with his play.

In the report of Wednesday's game, Farrell should have been credited with a grand slam from right field to the plate, to the sorrow of a base runner.

The Belleville and Park Nine will battle for glory at Kingston again to-morrow.

Bartholomew's knee will bother him for some time. He is expected to lead a physician who saw him this morning, says he will be unable to get up for some time, that the knee cap is cracked.—News.

The Kingsmen will have three new men, who include a battery about the end of this week. It is too bad that the Kingsmen cannot get men good enough to down the Belleville and hold them there. They have needed the country with a fine gun, and dump the new catch on to the Belleville only to have them knocked silly in every round but one.

The Kingsmen's "Last evening Manager Pollis, of the Park Nine club, tendered his resignation. He said he had not the time to devote to the interests of the organization. The club did not accept it, but will consider the matter."

Gains yesterday.—International League: Toronto 5, Buffalo 2; Rochester 12, Hamilton 9; Milwaukee 9, Syracuse 8; New York 6, Jersey City 3. National League: New York 6, Chicago 1; Boston 9, Pittsburg 8; Philadelphia 3, Detroit 2; Washington 3, Indianapolis 1.

The following is the standing of the various baseball clubs in the three great organizations:

NATIONAL LEAGUE.

The Balkans Abaze.

A CONDITION OF AFFAIRS TO WHICH EVENTS ARE TENDING.

LONDON, August 25.—Turkey has refused to accept Russian proposals for conciliatory action by sending either in the form of occupation or by sending Artin Effendi with a Russian commission to Bulgaria to secure the election of a new Sobranje and a new prime. Turkey prefers to await concerted action by all the powers party to the Berlin treaty to hastening a quarrel with the Bulgarians. His general opinion of leading European diplomats that Germany gave her assent to the Russian proposals for an Ottoman commission and a Russian general to settle the Bulgarian question, merely to place herself in a position to be able to prevent Russia from taking any precipitate action which might again set the Balkans ablaze.

The New Hebrides Question.

In spite of the very much modified tone of the French press the friction between the Governments of England and France over the New Hebrides question increases. The ground upon which France blocks the English proposal for the division of the island is most trivial and no one can doubt that England is amply justified in maintaining her attitude. Sooner or later France must yield the concessions she persistently and unwaveringly withholds.

Hoping for a Peaceful Solution.

ROME, Aug. 25.—The government has replied to the Porte's note that Italy considers the election of Prince Ferdinand to the throne of Bulgaria legal, but that his assumption of power is contrary to the Berlin treaty. The reply expresses a hope that the powers will succeed in effecting a peaceful solution of the problem.

WITHOUT EQUAL.

Wilson, Montreal, of Vieux St. Paul, having sent Dr. Fowler's Extract of Wild Strawberry in his family for summer complaint, says, "I cannot speak too highly of it for children as well as aged people troubled with diarrhea it has no equal."

Boating Accident.

Thursday's Whig says: "Yesterday afternoon the Rev. Dr. Douglas, of Montreal, and a party of friends were fishing in the vicinity of Mr. Finlay's island, near Gananoque, when the boat in which the doctor was upset, and the occupants thrown into the river, which at this point is from twelve to fourteen feet deep. Dr. Douglas, along with several of the party, were all severely injured. The reverend gentleman was at once taken to his own house and to-day is none the worse for his river bath."

Give Them a Chance?

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger passages, but the thousands of little tubes and capillaries leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot lead to their work. And what they do they cannot do.

Call it cold, cough, croup, pneumonia, bronchitis, consumption or any one of the family of throat and lung troubles, all are bad. All ought to be got rid of.

There is just one sure way to get rid of them. That is to take Hays' Golden Syrup, which any druggist will give you. It is a pleasant, refreshing, and healthful food. It is a pleasant, refreshing, and healthful food. It is a pleasant, refreshing, and healthful food.

Believe of Diamonds.

WHICH WERE BEING OBTAINED IN AN EXTRAORDINARY MANNER.

MONTREAL, August 25.—The Harrop Bros. today sold \$1,000 of jewelry and used diamonds and over \$100,000 worth on the Dominion line Vancouver being sent through the managers' baggage. The customs authorities received information that such frauds are carried on extensively, and more rigid inspection will now be made.

The Yarn About Imperial Troops.

LONDON, August 25.—In the House of Commons yesterday, Sir Henry Holland, the Home Secretary, replying to Sir Henry Tylor, said he had no information that Sir John Macdonald, the Canadian Premier, intended to ask for British troops for service in Manitoba, but he was not prepared to say that under circumstances would Imperial troops support the local force. Each case must be judged on its merits. The announcement was received with cheers.

Cannibalism Among the Northern Indians.

WINNIPEG, Aug. 25.—Advice received at Edmonton, N. W. T., from the Chagway country, in the far North, report a bad state of affairs. The starvation of last winter caused several cases of cannibalism. One old woman, now at Chippewyan, admits having killed and eaten her whole family last winter at Little Red River. Starvation and cannibalism are also reported from the Mackenzie River country.

Dying From a Man's Bite.

NEW YORK, Aug. 25.—Mrs. Jane Melbrooke is dying. Last week Posselt caused the arrest of her husband for assault. It was then that Posselt had seen Mrs. Melbrooke, had caught the thumb of her right hand in his mouth, and would not let her go until two men rushed in from the street and beat him off. Blood poisoning has set in. Posselt is under arrest.

A VALUABLE DISCOVERY.

F. P. Tamm, of Chicago, says he has not only found B. B. B. a sure cure for dyspepsia, but he also found it to be the best medicine for regulating and improving the system that he has ever taken. B. B. B. is the great system of the world.

Two Indians Shot.

WINNIPEG, August 25.—Two Indians have been shot by William Thompson, a settler near Calgary. The redskins were attempting to steal his cattle and attacked Thompson, who shot them in self-defense.

Anybody Know Escapes.

LONDON, Aug. 25.—Advice has been received to the effect that Anybody Know with his principal followers has escaped from Persia, where he has been held as a prisoner of State. Troops are in pursuit.

A Great Comet Visible.

INDIANAPOLIS, Aug. 24.—The largest comet that has appeared in many years was visible here last night in the northern sky. The outline was like a fan, but was perfectly plain to the naked eye.

A Stay in the Sharp Case.

WHITEHALL, N. Y., Aug. 25.—Judge Potter has granted a stay in the safe case.

FURBER'S WOMEN TUNERS are safe, sure and speedy to remove worms from children or adults.

Russia is reported as about to adopt the plan of preventing any Bulgarian legislation under Prince Ferdinand.

THEY SELL IT EVERYWHERE. London, Ind. says: "Both my wife and I are cured of SHILLS' CONSUMPTION CURE."

BILIOUSNESS, DYSPEPSIA, INDIGESTION, FLUTTERING OF THE HEART, JAUNDICE, ACIDITY OF THE STOMACH, RHEUMATISM, HEADACHE, OF THE SKIN, AND every species of chronic poisoning from disordered LIVER, KIDNEYS, STOMACH, BOWELS, OR BLADDER.

Save Grain For Seed.

Most practical agricultural journals have much to say every fall, and not too much about the best methods of saving seed corn. This crop is planted in hills with only three or four seeds in each, and a failure of any of the seed to grow is not only a quick ruin, but it is a sure sign of a poor harvest. With the smaller grain, on the contrary, some broadcast or drilled as to cover, or the sowing ground, the defects in seed are less noticeable, but scarcely less serious. In corn we have learned that it is not enough that vitality remains sufficient to insure germination under the most favorable circumstances. We learn that the seed has never been frozen, or at least not until after thorough drying, will produce plants of so much greater vigor as to make a much heavier yield without any difference in the soil. It is perhaps the cheapest and easiest means of increasing the corn crop always secure good seed.

MAKE YOUR OWN SOFT POTASH.

Delivered to all parts of the City.

CARMICHAEL'S Drug Store.

Over-feeding in Sowing.

It is fifty years, or more since Josiah Quincy wrote on the advantages of sowing seed in the practice of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrhs, Asthma, and all Throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellow-men. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this receipt, in German, French or English, with full directions for preparation and using. Sent by mail with addressing stamp, naming this paper. W. A. Novas, 149 Foster Road, New York, N. Y.

CONSUMPTION CURED.

An old physician, retired from practice, having placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrhs, Asthma, and all Throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellow-men. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this receipt, in German, French or English, with full directions for preparation and using. PROBABILITIES.

TORONTO, Aug. 31.—Light to moderate winds, mostly east and south, fine weather, stationary or higher temperature.

Tenders Wanted.

Tenders for the supply of meat, fish, and other provisions, for the fair, are invited to submit their bids to the undersigned.

Wages Case.

The wages case of Geo. Orger against Chas. Lafont was satisfactorily adjusted this morning by the court.

Cruelty to Animals.

Samuel Cross of Tyndinburg was before the Magistrate this morning dealing with a charge of cruelly beating a horse. He was fined \$10 and \$10 costs.

Conservators should try Alton's Long Hairs. It can be had of any Druggist.

Disorderly House.

Mrs. Goudy was examined before the Magistrate this morning dealing with a charge of keeping a disorderly house.

Sweet Music.

The sweet strains of music which fill the air and penetrate to all parts of the city, proceed from the dredge in the harbor.

Important Meeting.

As special and important business will be transacted at the regular meeting of Belleville Lodge, I. O. O. F., to-morrow night, a large attendance is requested.

Curiosity Shop.

Fred Johnston found a veritable curiosity shop on the corner of Bridge and John Sts., this morning in the shape of a rubber pouch.

Something of a Man.

Mr. Chas. O. Dorn, a blacksmith of Tyndinburg, was attending Police Court to-day, and is what may be considered something of a man.

Opera House.

Last evening's entertainment was thoroughly enjoyable. Miss Flint as the young widow gave a most artistic exhibition of her histrionic powers.

Beware of Woman's Wiles.

Some few weeks ago a one-legged man named Sam Winkens canvassed the city for subscriptions to purchase a work leg.

Another Snail.

A couple of young citizens drove down last Thursday yesterday to see the railway wreck.

Give Him the Cake.

As is well known, the Park Nine of Kingston, are the particular care of the News.

Obit.

Mr. Hiram Holden, an old and esteemed citizen, has passed to the silent majority.

MEMORIAL MENTION.

Dr. Butler, of Montreal, will be at the Queen's Hotel, Belleville, on Monday, Sept. 5th.

AN UNDOUBTED OPINION.

"I was severely troubled with dizziness and had much trouble in the head and eyes. I was recommended to use a reliable medicine. I used it as a rule, and it cured me."

Barnum's Great Circus and Hippodrome.

THE REPRODUCTION OF JUMBO AND MANY OTHER FEATURES.

For more than 50 years past P. T. Barnum has been before the public catering to their amusement and instruction, and during that time he has been the originator and manager of nearly all the large public enterprises in his country.

His past great achievements, however, are dwarfed by comparison with his present enormous exhibition, and which his sincerity will come here on Tuesday, Sept. 5th.

This year's show, comprised under the name of the United Barnum and London Shows, consists of nine immensely large exhibitions, one of which, the principal feature, is in one, with three full circus companies in three rings, a museum of living wonders, two double menageries, a grand elevated stage, the great Roman Hippodrome, reproduction of Jumbo, Alice Jumbo's widow, the ivory banded elephant skeleton, the wonderful hairy family from Burnah, King Theobald's mascot, Captain Paul Boyton's aquatic performance in a specially constructed lake of clear water, the flying gymnast, etc., and is transported upon a railroad train a mile long, has 800 people on its payroll; requires a tent covering ten acres, seating 200,000 persons, with two other tents, each 300 feet long. Herds of elephants, camels, 500 horses, 120 ponies, and hundreds of other wild animals are under other happy canvas.

In exhibiting these marvellous collections of novelties—in which 100 acts of a daring kind are shown—Barnum has sustained his title of the "prince of showmen," for in his line he has no equal.

In addition to the attractions mentioned there are the thrilling Roman chariot races, male and female jockey races, hurdle, flat and steeple chase races, and many other kind of sports and contests. Besides all this there will be a grand equestrian entertainment, in which a great many European sensations will be introduced. The entire exhibition is one of the most exciting character, and entirely novel in every respect. The monster parade will take place in the morning at 8 o'clock.

WITHOUT EQUAL.

Witness, Montreal, of Vienna, Oct. 10, having seen Dr. Fowler's Extraordinary Wild Strawberry Show, which is a great many times as good as any other show of the kind, it is no equal.

PERSONAL.

The Premier and Lady Macdonald returned to Ottawa yesterday. Sir John is in excellent health.

The report that John Ruskin is insane is untrue.

Rev. Mr. Turnbull, former pastor of the Baptist Church in this city, is in the city.

Mr. W. B. Northrup has returned from a flying tour through part of Canada's dominions.

Mr. O'Brien, of Toronto, is in the city.

Mrs. Harry Holden, nee Miss Nellie Jones, of Detroit, is visiting her mother, Mrs. Emmens, of Albert St., stayed over to-night to visit her daughter of St. Paul, Minn., and her son in Winnipeg.

Messrs. J. S. Hendrie and J. G. Macklin, contractors, were in the city to-day, guests at the Queen's, and had an interview with Mr. Riddell, of the G. T. R. Y., respecting their valuable stone quarries at Reid's mills.

Mr. Hostage, with his usual liberality, entertained the members of the Baseball Club who will trip on the lay this afternoon, on the loloche.

The District Fair.

About \$1,000 improvements are being made at the exhibition park this year. Additional new sheds are going up for cows, sheep, and swine. A dining hall is being erected. A band stand is to be put up and the track fenced. The ground and track are also receiving their share of attention and will be in prime condition by the time the exhibition opens. Exhibitors are also coming in, some from long distances. Some are from east of Brockville, while others are from points west of Toronto. Nearly all, so far, are new exhibitors. The prize list will be furnished to all applicants. In live stock the first prize is \$10 in many cases and in no case are they less than \$5. The farming community is interested and the animals bound to be large.

2. Avoid Baldness or Grey Hair.

Use Dr. Dorcas's Great German Hair Magic. It keeps the scalp clean and free from dandruff, and promotes the growth of the hair. It prevents premature grays and stops any falling out of the hair. On bald heads, where the roots have not perished, it will invigorate them and force a new growth of hair. Ask for Hair Magic. It is the only reliable. For sale by all druggists in Belleville and all parts of Canada.

He Can't Help It.

Geo. Foster is an old veteran. He says he served in "B" Battery in the North-West under Capt. Parry, and was at the Cap Kettle fight. He has a weakness for strong drink and says he cannot withstand it. The police have captured him twice recently and their morning he was fined \$1. Drink seems to swamp many of the old veterans.

Conservative Association.

A meeting of the Conservative Association for West Hastings is to be held at the Conservative Club rooms on Saturday, Sept. 10th, for the purpose of appointing delegates to the Toronto convention, which is to be held on Sept. 13th and 14th.

A VALUABLE DISCOVERY.

F. P. Tanner of Neshing, Ont., says he has not only found a cure for the most obstinate cases, but he also found it to be the best medicine for regulating and invigorating the system that has ever been taken. B. D. B. is the great system regulator.

It was a strange manner in which the team of horses used in the North-West took Reading on Monday morning. A. C. P. H. and K. A. P. train were going in different directions on parallel tracks, and one horse was killed by the west-bound and the other by the east-bound, but the two men who were with them were not hurt.

ALWAYS RECOVER! A good cathartic medicine. National Pills will not disappoint you.

Escape Extraordinary.

TWO KINGSTON CONVICTS RUN AWAY WITH THE WARDEN'S YACHT.

KINGSTON, Aug. 30.—About five o'clock this afternoon a sensation was occasioned by the announcement which came over the telephone wires from Portsmouth that about 30 convicts of the Kingston Penitentiary had escaped by the steam yacht of Warden Levee. The excitement was intense and it seemed to be the increase of a tidal second report was circulated to the effect that only two prisoners had bolted for freedom. These were Kelly and Socon, who had about two years of their respective sentences to run, and had by continued good conduct merited the utmost confidence of the warden. The prisoners, however, during the afternoon, Warden Levee and members of his staff had been out for a cruise on the lake, having Kelly and Socon as engineer and fireman. Having returned to the wharf, the officials stepped out of the boat and arranged to have her tied up, when her engine was set going and she shot out from the dock. The officials did not comprehend the meaning of the convicts on board for a moment or two, but presently the situation dawned upon them—the men were attempting to escape. In a minute the officers levelled their revolvers and fired into the boat, and it went on. The men were taking shelter behind the engine and boiler and the woodwork by which the craft was enclosed. Then the guards on the wall fired. The craft was steady for a while, and in the end the bullets would have disabled the boat and its occupants, but that two men in a rowboat came into the line of fire and the discharge of lead was stopped. Then the boat was made to turn and the men in her boat, but in the meantime the June, the warden's yacht, which is capable of running about ten miles an hour, had made good headway up the lake. The chase was joined in by the steam yacht Ripple and Julian, carrying officers of the prison, armed; and the steamer Chieftain was despatched upon the Battau Channel to head the June off as she turned into the American channel off Nine Mile Point. The result of the chase is not known at the present writing.

Kelly hailed from Welland. Thomas Graham and Richard Atkins, who occupied the skill which got near to the June when she was leaving Portsmouth harbor, escaped the fire of the guards upon her, say that they heard the convicts talking and swearing at the guards who fired upon them. One was also heard to swear that he would murder the other if he did not fire up.

Correct information about the escape of the convicts cannot be gleaned. Warden Levee will not say anything. It is now said that the yacht was secured to the wharf by a wire cable and that this was cut.

BETTER HUMAN NOW.

"My son, aged eleven, was cured of an eruptive humor that covered his head and face by the use of Dr. Fowler's Extraordinary Wild Strawberry Show, which is a great many times as good as any other show of the kind, it is no equal."

Sporting Notes.

The Yankees think they have discovered the mystery of the Thistle. The New York Commercial Advertiser says it has been informed that "there is reason for believing that the Scotch cutter Thistle is provided with a patent appliance which, aside from her lines and sail area, will materially increase her speed. It is furthermore alleged that it was to conceal this appliance that she was built under a shed by men pledged to secrecy and launched with her hull draped in canvas. The contrivance which the owners of the best cutter are said to depend upon for enabling her to take home the America's cup is not designed to propel the yacht, but merely to lessen the opposition to her progress. The theory of the inventor is that a current of air is made to pass through chambers running along either side of the hull. These chambers are perforated in such a way that a current of air with a strongly impelled jet of water, escapes through each hole in the chamber, and so forms a bed of air bubbles on which the yacht rests while in motion. Obviously the friction is greatly diminished at the speed of the vessel proportionately increased. This is as good as the allegation once made that Hanlan had a mechanical appliance in his racing shell. An American yachtsman will lose something new by the advent of the Thistle in their waters. The style in which her main sail is attached to the boom is looked upon as far ahead of the old method of lacing. Along the entire roping of the sail are a number of patented iron staples, which work along upon a bending jockey of the same metal. This relieves the boom of much strain and renders it safe to carry a smaller spar. From the topmast head two crucible cast steel backstays are led to the stern on each side, and are set up taut when running, and the weather one if carrying the jibtop sail on the best Russian hemp, except the main sheet, which is a soft material.

Pat Kitchie has cured cases of Rheumatism and Neuralgia after years standing.

Base Ball Notes.

The Bellevilles will play the Kingstons at Kingston on Saturday and in this city on Monday.

Two thousand dollars were netted at the game between the Hamiltons and Toronto at Toronto on Monday last.

It is reported that a new exhibition game with the Toronto have, to played some time during September. Why not have it during exhibition week?

The Vren says the Belleville people have had the indignation of the National Bank out. Not so; it was the Kingstons who have been striking out.

Games yesterday—Hamilton 5, Toronto 4 (best of game); Syracuse 6, Jersey City 2; Boston 1, Williams 0; National League 10, New York 2; Indianapolis 0, Detroit 3; Washington 7, Chicago 1; Philadelphia 4, Pittsburgh 1.

Proposed Summer Resort.

What Day of Quinte Capitalists Suggest for Frequenting.

The Ottawa correspondent of the Toronto Mail says:

"A number of Belleville, Trenton and Brighton gentlemen have applied to the Department of Marine asking that a portion of the Government land on Frez's Isle, Peninsula opposite the village of Brighton, County of Northumberland, may be either leased to them for the purpose of converting it into a summer resort. The Government has a lighthouse on the Peninsula with a large tract of land in connection therewith, a considerable portion of which, about 160 acres, is not required for lighthouse purposes, and this, there is good reason to believe, the applicants will have no difficulty in obtaining at a fair market price. The promoters of the undertaking propose, in fact, the scheme is to make the resort a house of beauty and a joy for ever. Should the land be secured, of which there seems very little doubt, the Frez's Isle will be expected to become one of the finest pleasure resorts in Ontario. Minister Foster will be called upon before the Cabinet at the earliest opportunity."

HAVE YOU TRIED IT?

If so you can testify to the marvellous powers of healing and recommend it to your friends. We refer to Dr. Fowler's Extraordinary Wild Strawberry Show, which is a great many times as good
